

PUBLIC SPACE IMPROVEMENTS

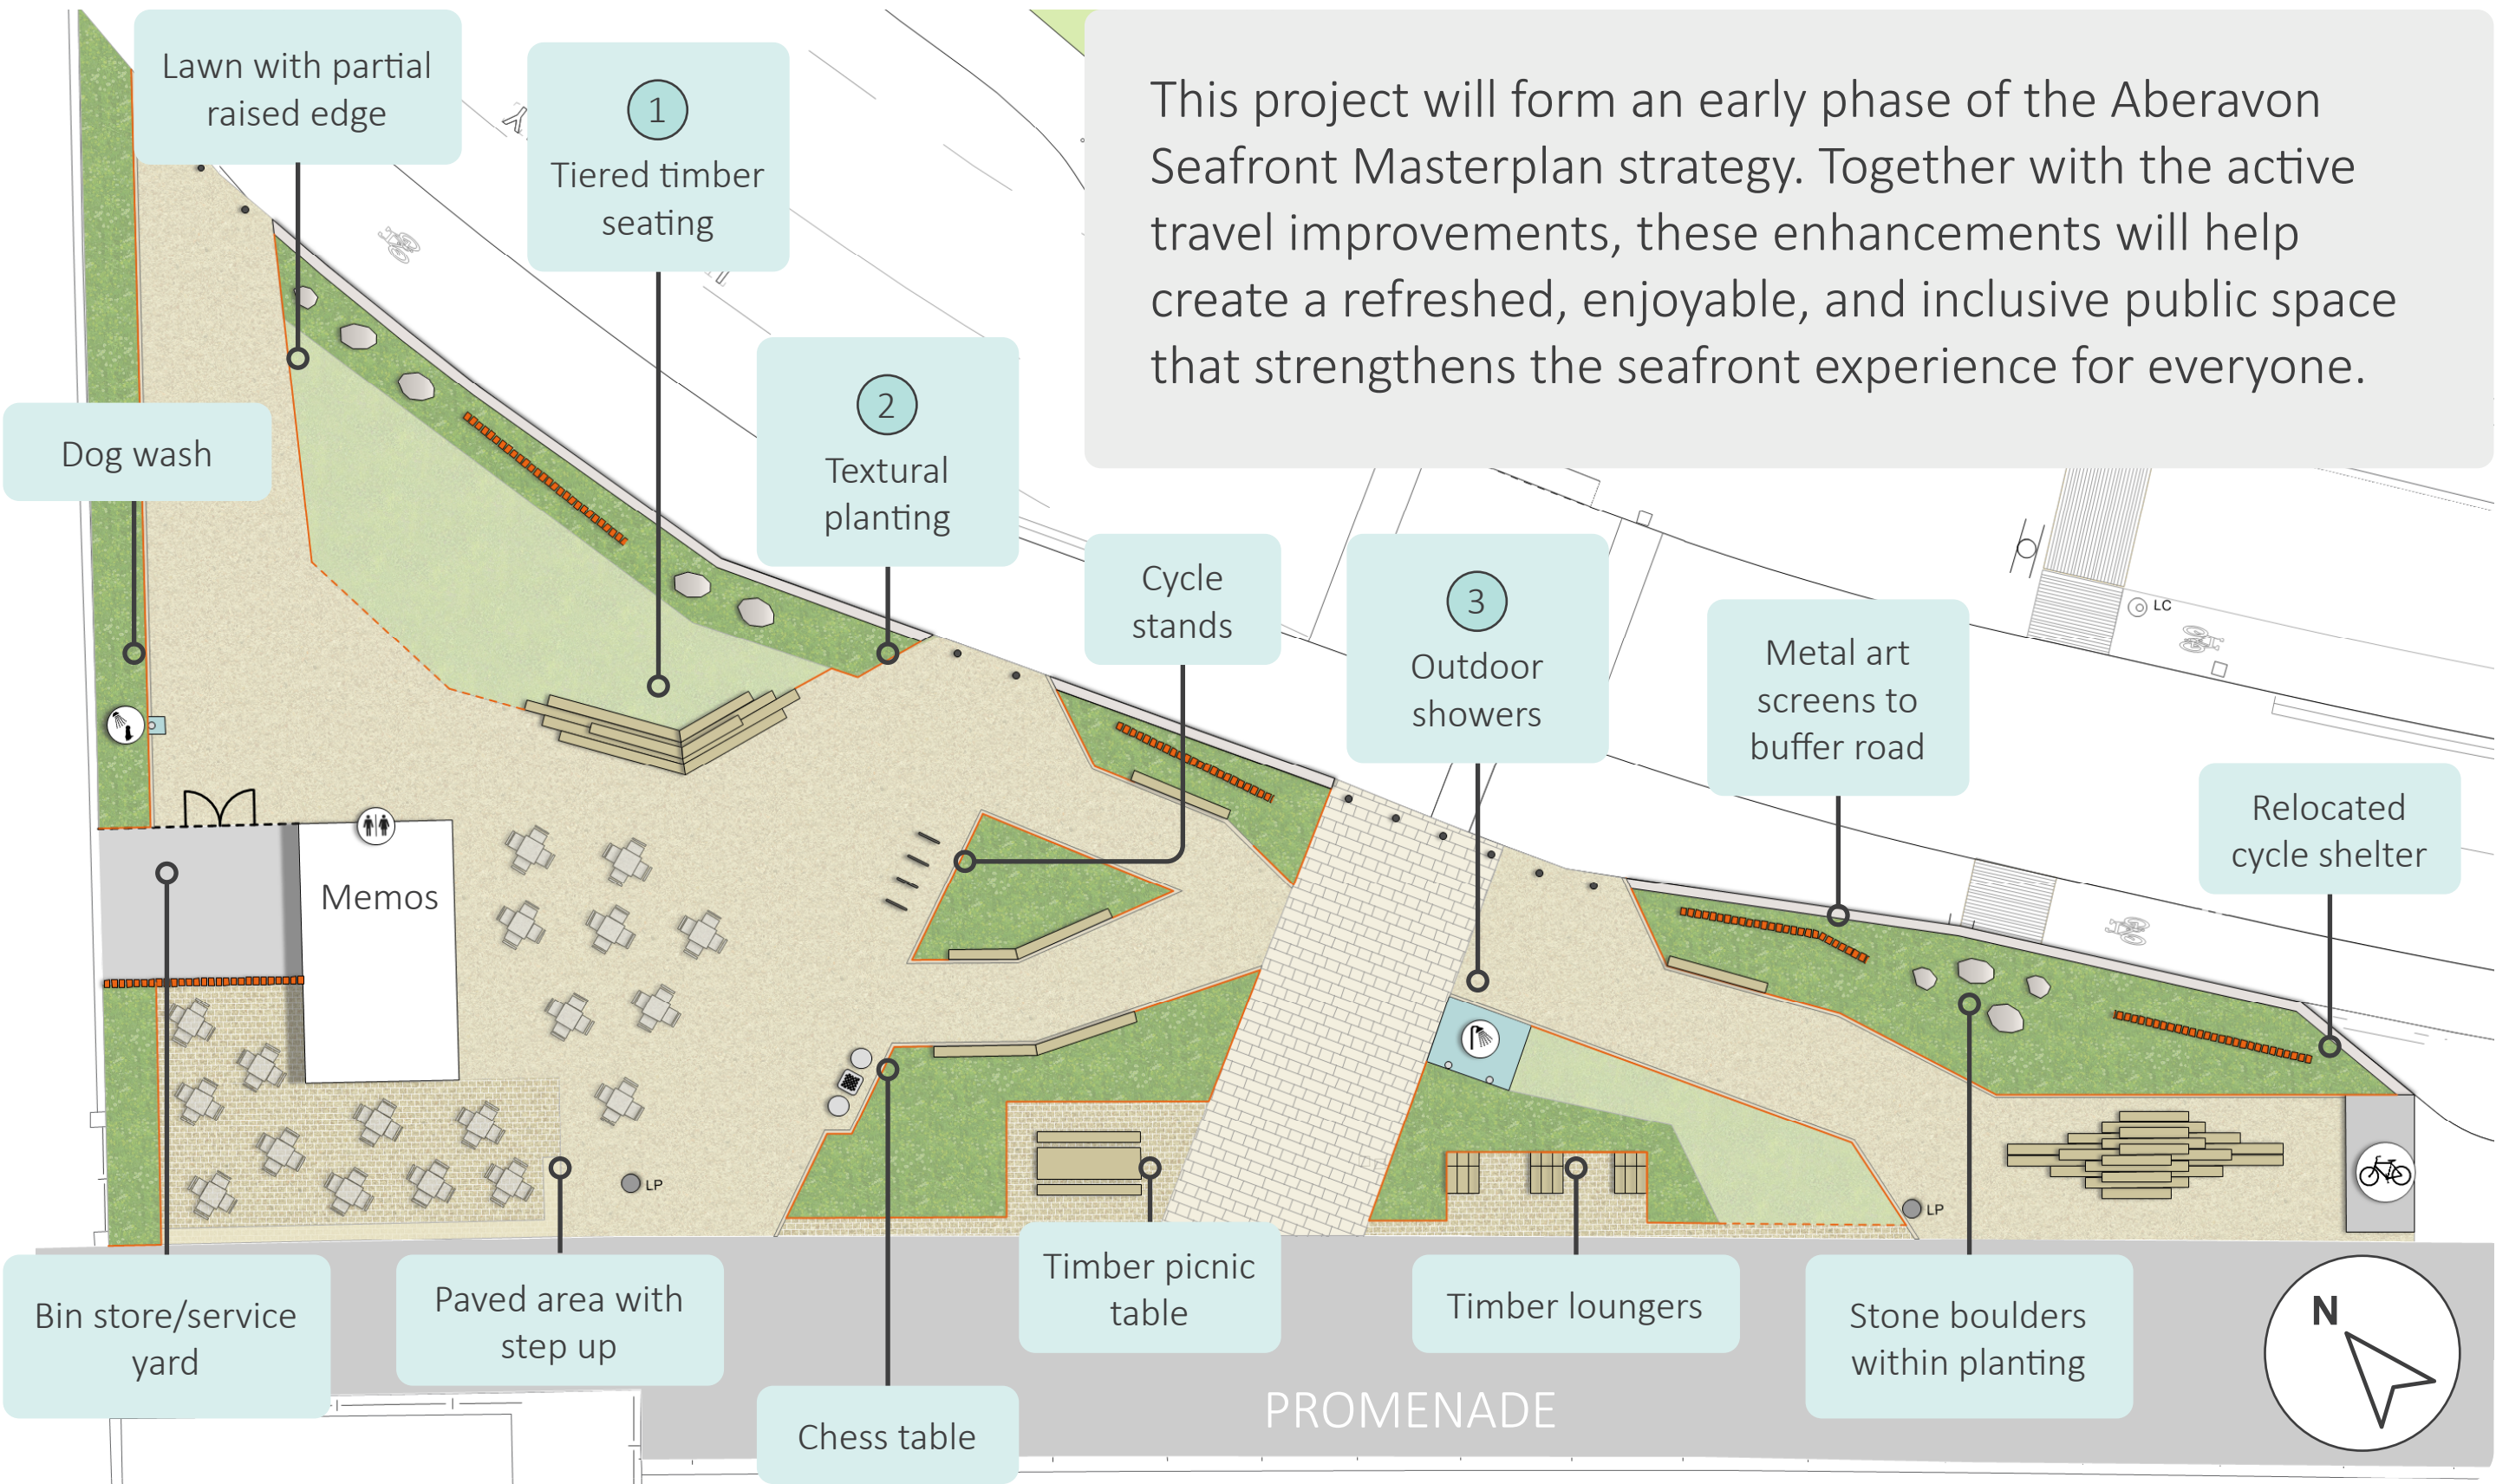

Area around Memo Beach Cafe

We're transforming the much-loved area surrounding Memo Beach Café on Aberavon Seafront through a set of exciting proposals designed to revitalise this community space. Our vision is to create a more welcoming, attractive, & vibrant public space through a series of high-quality improvements, including:

- ✓ **Upgraded surface materials to enhance accessibility and appearance, replacing the existing patchy black-top surface. New green infrastructure with planting/lawned areas.**
- ✓ **Secure cycle storage to support active travel.**
- ✓ **Comfortable new seating areas for relaxation and socialising.**
- ✓ **Public artwork celebrating local character, creativity, heritage.**
- ✓ **Outdoor showering facilities for beach users.**

Proposed Landscape Concept Plan

This project will form an early phase of the Aberavon Seafront Masterplan strategy. Together with the active travel improvements, these enhancements will help create a refreshed, enjoyable, and inclusive public space that strengthens the seafront experience for everyone.
